

Don't we live in a country that I am allowed to make a choice of services of products? Why should the NAB be allowed to make the decisions that should be left up to the people? What ever happened to fair trade healthy competition? If I've been offered a better choice, let the ones that weren't chosen be encouraged to improve their offerings. DO NOT LIMIT THE OFFERINGS OF XM RADIO. Let the people make a choice and speak out to everyone as to what they want to listen to.
